Senior Development & Compliance Services

Warringah Council-Development Service

I am a resident in the Dardanelles section of the War Vets Village in Narrabeen and would like to lodge my disapproval at the suggested opening of the road to James Wheeler Place on the grounds of safety to the elderly residents living in the street affected by its opening
this is a narrow street with NO footpaths so the residents have to use the road to access ----

1----Their Letterboxes

2----Their Clothes lines

3----their Garbage Bins

Apart from these serious safety issues, these people having bought their homes along this street were told that this access was only there in case of emergency eg Fire etc and because of Land & Environment Ruling would never be used as a public access road

I believe The War Vets Management should have taken into consideration a new road up to Lantana Avenue before building so many new units, and not take the safety of there elderly residents safety so lightly

I would like to hear your response to this letter

Thank you
