RE: DA2020/1517 - 45 Warriewood Road WARRIEWOOD NSW 2102

I am strongly opposing the building of this many dwellings for this new development. There is too many apartments going up in the area as it is and its losing its comfortable and pleasant feel. If the street were houses instead of apartments then that would be much better. This new trend of shoving as many people into a space is horrible. I have not any person on the Northern Beaches that thinks more apartments is a good idea and the council is supposed to act beneficially on behalf of the community. How are these sorts of decisions in the best interest of the current people living in the area? It simply is not. Traffic, parking and destruction of more nature, none of this is good. At least limit the damage by building houses and not apartments.

We bought into the area because we felt it would be a nice place to raise a family but we now feel it's less desirable because it is turning into a concrete jungle.
