RE: DA2025/0266 - 116 Nareen Parade NORTH NARRABEEN NSW 2101

Lido Avenue is one of two local roads that move traffic to and from this site. Lido Ave is a residential street that has no kerb and guttering and no footpaths for pedestrians. The road surface is also in poor condition with pot holes and damage. Concerns for pedestrian safety due to an increase in vehicle traffic, particularly heavy vehicles too and from this site. Further degradation of the road surface due to increased vehicle traffic will make it dangerous. A road assessment is urgently required to ensure public safety. Consideration of a priority road upgrade with dedicated pedestrian paths and kerb and guttering to mitigate risk of injury to persons and property.
