**RE: DA2020/1397 - 16 Bangaroo Street NORTH BALGOWLAH NSW 2093**

Rules set by council 1 car space for every 4 children this does not met the requirements as this proposal of 24 places has only 5 car spaces for 24 children and 3 staff members with a proposal for parents to be allocated a drop off and pick up time of 10 mins each. Off street parking is not an option and public transport is not an option as parents and children will be crossing a major road with NO crossing or traffic lights and the busiest time of day How safe is this? who will be responsible when an accident occurs either to parent, child or locals. Children need time to adjust at drop off and pick up. Seperation anxiety Is prevalent in many children of that age group. This will lead to more time for the parent and child leaving parking an issue.

We all know how everyone wants to discuss their child to staff ie developmental concerns, how was their day etc again leading to traffic congestion.
