Dear Mr Susko,

We are writing to you on behalf on The Academy Netball Club. We are one of the major users of NBISC and have been, from when it was developed and built. **We strongly object to the Development application.**

There are leases in place which are quite clearly being broken with this application. There are very serious ramifications to NBISC and therefore our club and its operations.

We object to any building, carpark, path, interruptions, roadworks, road using, thoroughfare etc **upon the land which NBISC is the leaseholder** of. It is disgusting that the Department of Education have even submitted such an application without the consultation of NBISC.

Thanks  
The Academy Netball Club
