RE: DA2021/0311 - 2 The Circle NARRAWEENA NSW 2099

- Narraweena is zoned low density and this proposal does not comply (12 units on one block of land).
- The construction is near 2 main primary schools as well as childcare centres and a retirement home.
- the area is frequented by young children and families especially at Beverly. We have concerns regarding security issues linked to the kind of occupants of the boarding house.

Such a construction will impact the value of our properties and decrease in he value. This site is not suitable for a boarding home and we urge the assessment panel to review all aspects and ensure the safety and security of the Narraweena residents are considered over profit.
