RE: DA2021/1620 - 31 Moore Road FRESHWATER NSW 2096

I already hear a lot of noise from the pub and I am not even an immediate neighbour. The proposed changes will only increase the noise and the number of people walking past a residential area drunk.

Increased capacity = more people. An outdoor sound system = more noise.

I fail to see how this development is compatible with a residential neighbourhood.

Plus the streets are already overrun with cars, with barely any parking spaces on site, these will take over our local roads.
