*To Whom it May Concern,*

*I have been watching the activity of the recent development application and wish to provide my feedback on the application.*

*I live at 64 Undercliff Rd and have lived here when the Hotel was under previous ownership and under the current ownership. I have noticed increased security which has resulted in less noise on the street as people move on faster and there are no conflicts occurring. Additionally, since the windows have been updated there has been less noise as we are now unable to hear any music etc. from our apartment.*

*The proposed modifications are welcomed and seem like something all of the freshwater community would enjoy. Excited to see what more the pub has to bring.*

*Please also note that since I am not able to attend the planning panel I would like to nominate Mrs King from 4 Charles Street as my Spokesperson.*

*Kind regards,*

*Molly*
