Attention officer - Jordon Davies.

Please find my submission regarding Robertson Rd. Newport...

Newport is the Gateway to Paradise.

Robertson Rd and Foamcrest car park is the heart of Newport - and should be looked at as a WHOLE!.

It's critical that this area aesthetically echoes the village feel.

For instance, our car park becomes a grassed piazza with underground parking, similar to Coles. We need a boutique hotel, ideally where BWS and scruffy pop-up shops are.

Barrenjoey Rd is, and will continue to be a racing track: a drive through!

What about exit and entry points for any development in Robertson Rd?

This whole area will define Newport's future. It must be considered a destination similar to Noosa.

We can not allow more concrete boxes.

We have a golden opportunity, let's not waste it.

Please let me know a date and time when your new specialised council team can view Robertson Rd; before anything happens there!

Kind regards.
