**RE: DA2020/0962 - 0 Wharves And Jetties MANLY NSW 2095**

I object to the enlargement of the Manly Wharf interchange use by Hugos. They already have the prime view corner of the western decked area and the only level top area. The lower decking and staircase on the western side is highly utilised by locals and visitors as a place to sit in the sun in winter and a place to eat take away food purchased at the Wharf eateries. To lose more of this precious harbourside open area to a business would be a big loss to us. This area is also above the fairy penguin breeding area.  
Thankyou.
