**RE: DA2021/2173 - 394 Barrenjoey Road NEWPORT NSW 2106**

I fully support the restoration and redevelopment of the Newport Surf Club as proposed in the plans prepared by Adriano Pupilli Architects. These works are long overdue and the club is in desperate need of renovation and more space for essential life saving and training equipment. I use the club facilities multiple times weekly all year round and support the club on Fridays and Sunday afternoons for drinks. The proposed changes are subtle in nature, are an efficient use of space, yet provide for much needed space and improved functionality - all whilst appearing to not be overbearing when viewed from surrounding public areas. The updated plans also include the new sea foundation walls required to protect the building during high tides. I am pleased to see the existing original club building being retained and a new contemporary addition proposed which sits comfortably at the northern end of the building. The internal spaces have been rationalised to allow for greater functionality and use of space. These works are much needed for the local Newport and broader community and must be approved to ensure the ongoing success and service of the Newport surf club.
