Dear Elizabeth

**Re: Review of Waste Management Plans – 195-197 Sydney Road, Fairlight NSW**

Waste Audit & Consultancy prepared Operational (September 2018), and Demolition/Construction Waste Management plans (October 2018), for the development located at 195-197 Sydney Road, Fairlight.

The Operational Waste Management plan detailed the number of bins that were needed for waste and recyclables and the requirement for storage areas for them. The provided drawings indicated that there was more than sufficient space for the number of bins as estimated which included a 30% allowance for bin movement.

I have reviewed the requirement as specified by the Northern Beaches Council (DA Condition 12), and the revised plans and can confirm that these changes are acceptable and there are no additional impacts as a result of meeting the DA Condition.

Yours sincerely
