

## Natural Environment Referral Response - Biodiversity

<b>Application Number:</b>	DA2021/1810
<b>Date:</b>	11/10/2021
<b>Responsible Officer</b>	Gareth David
<b>Land to be developed (Address):</b>	Lot 25 DP 16029 , 49 Grandview Drive NEWPORT NSW 2106

### Reasons for referral

This application seeks consent development on land, or within 40m of land, containing:

- All Development Applications on
- Actual or potential threatened species, populations, ecological communities, or their habitats;
- Wildlife corridors;
- Vegetation query stipulating that a Flora and Fauna Assessment is required;
- Vegetation query - X type located in both A & C Wards;

And as such, Council's Natural Environment Unit officers are required to consider the likely potential environmental impacts.

### Officer comments

The application seeks approval for alterations and additions to an existing dwelling, including, internal alterations to existing ground floor, new first floor addition including , balcony, deck and stairs and rebuilding of existing rear ground floor deck.

Council's Natural Environment Unit - Biodiversity referral team have reviewed the application for consistency against the relevant environmental legislation and controls, including:

#### **Biodiversity Conservation Act 2016 Biodiversity Conservation Regulation 2017 Pittwater Local Environmental Plan (PLEP)**

- 7.6 Biodiversity Protection

#### **Pittwater Development Control Plan (PDCP)**

- B4.7 Pittwater Spotted Gum Forest - Endangered Ecological Community

The site is located within the Department of Planning, Industry and Environment's (DPIE) Biodiversity Values (BV) Mapping. Any removal of native vegetation from within mapped areas will trigger the Biodiversity Offset Scheme (BOS). As an Arboricultural Impact Assessment is provided with the application that states that no significant trees or vegetation shall be removed as a result of proposed works which is supported by the Architectural Plans; the BOS is not triggered.

The application does not require the removal of prescribed trees or vegetation, nor is it likely to impact

on nearby biodiversity values. Subject to conditions the Bushland and Biodiversity referral team find the application to be consistent against relevant environmental controls.

The proposal is therefore supported.

Note: Should you have any concerns with the referral comments above, please discuss these with the Responsible Officer.

**Recommended Natural Environment Conditions:**

**CONDITIONS TO BE SATISFIED PRIOR TO THE ISSUE OF THE CONSTRUCTION  
CERTIFICATE**

**No Clearing of Vegetation**

Unless otherwise exempt, no vegetation is to be cleared prior to issue of a Construction Certificate.

Details demonstrating compliance are to be submitted to the Certifying Authority prior to issue of Construction Certificate.

Reason: To protect native vegetation.

**Engagement of Project Ecologist**

All tree protection measures as recommended within the submitted Arboricultural Impact Appraisal and Method Statement (EziGrow 2020) are to be adhered to, including limiting excavation to by hand only while working within any Tree Protection Zones.

Details demonstrating compliance must be prepared by the Project Arborist and submitted to the Principal Certifying Authority prior to any commencement.

Reason: To protect native vegetation and wildlife.

**CONDITIONS THAT MUST BE ADDRESSED PRIOR TO ANY COMMENCEMENT**

**Protection of Habitat Features**

All natural landscape features, including any rock outcrops, native vegetation and/or watercourses, are to remain undisturbed during the construction works, except where affected by necessary works detailed on approved plans.

Reason: To protect wildlife habitat.

**CONDITIONS WHICH MUST BE COMPLIED WITH PRIOR TO THE ISSUE OF THE  
OCCUPATION CERTIFICATE**

**No Weeds Imported On To The Site**

No Priority or environmental weeds (as specified in the Northern Beaches Local Weed Management Plan 2019 – 2023) are to be imported on to the site prior to or during construction works.

Details demonstrating compliance are to be submitted to the Principal Certifying Authority prior to issue of any Occupation Certificate.

Reason: To reduce the risk of site works contributing to spread of Priority and environmental weeds.

### **ON-GOING CONDITIONS THAT MUST BE COMPLIED WITH AT ALL TIMES**

#### **Protection of Habitat Features**

All natural landscape features, including any rock outcrops, native vegetation, soil and/or watercourses, are to remain undisturbed except where affected by necessary works detailed on approved plans.

Reason: To protect wildlife habitat.
