**Subject:** Support of DA

Dear Northern Beaches Council

I am writing in support of The Hugos deck extension (D.A 2020/0962).

Firstly the current outdoor deck is amazing and such a wonderful dining experience to truly enjoy the dining experience but it has limited places.

My sister is here from LA and all of the restaurants are extending their outdoor dining areas and not only is it a wonderful way of dining but it also helps with the current climate and ensures restaurants can stay open during COVID-19.

I think that it would be unfair not to allow this development as it would allow a long standing restaurant to keep open and clients to experience such a beautiful outdoor dining experience. I don't see any downside to this.

Many thanks
