Dear Sirs

I write to object against the proposed expansion of The Pasadena Restaurant into The Thomas Stephens Reserve at Church Point.

My concerns are that the proposed development will impact seriously on the amenity of the Thomas Stephens Reserve and cause further parking and visitation to this small area that is essential to all of us living in offshore communities.

The existing facilities are busy enough with motor cyclists, bicycle riders walkers and watercraft users as regular visitors.

My wife and I strongly believe that the reserve should be kept in its present form without further development.

Regards

Robert
