Subject: DA2021/1620

Categories:

I wish to inform the LDPP that it is Friday 18th March 2022 and between 10 30pm and 10 42pm there has been cars tooting their horns in the street disturbing my sleep and from noisy Harbord Hotel patrons departing the hotel .I live 50metres diagonally opposite the hotel.

This has been a regular occurrence for the last month.

If the panel intends to allow this DA to proceed when the hotel cannot control with current patrons departing in a quiet and orderly manner then the quiet local amenity of this suburb is finished.

Adding to the hotel site by allowing more patrons upstairs will only cause more noise disturbances.

Signed

Dr Ian M Alexander
