Waste Management Plan

For property: 66 The Outlook Bilgola Plateau

As this is a prefabricated all metal structure, waste and rubbish will be limited to plastic packaging, cardboard and a small amount of metal off-cuts that will amount to approximately 0.9m³. There will be approximately 1m³ of timber handrail that will be demolished off the existing balcony. This will amount to less than a utility load of waste.

Thereby the above will be removed to our bin system at our factory unit in Brookvale, where it will be separated into the appropriate rubbish and/ or recyclable material waste and disposed of in appropriate ways to an approved tip or waste transfer station.

Where there is mixed waste it will be stacked in the storage area on site, off site it will be taken to Kimbriki tip at Mona Vale and or to the closest landfill.

Purpose of the Waste Management Plan

This *Waste Management Plan (WMP)* will detail the arrangements for waste management during all stages of development and occupation.

The WMP must be completed in accordance with the Waste Management Guidelines (Guidelines).

A completed WMP is a mandatory requirement for any Development Application (DA) submitted under WLEP 2011 or WLEP 2000. DAs that are submitted without a completed WMP will be rejected or refused by Council.

Structure of the Waste Management Plan

All applicants are required to complete the 'Applicant and Project Details' part of the WMP and include it with the relevant Sections that apply to their proposed development.

The WMP is divided into Sections and applicants are only required to complete the relevant Sections in accordance with the Guidelines. The table below identifies which Sections are relevant to which development types.

For example, if the proposed development was to include demolition of an existing structure and construction of a single dwelling, the relevant Sections would be Sections 1, 2 and 3.

Section	Development Type [^]
Section 1 – Demolition	All
Section 2 – Construction	All
Section 3 – On-going waste management for one or two dwellings	One or two dwelling developments Mixed-use developments containing one or two dwellings
Section 4 – On-going waste management for three or more dwellings	Three or more dwelling developments Mixed-use developments containing three or more dwellings
Section 5 – On-going waste management for non-residential and mixed use developments	Commercial developments Industrial developments Mixed-use developments
Section 6 – Private roadway developments	Private roadways

[^]Note: the definitions of the development types are provided in Section vi of the Introduction to the Guidelines
