Details of heritage items affected
<p>Details of the heritage items as contained within the Manly Heritage inventory are:</p> <p>Item I106 - Group of commercial buildings <u>Statement of significance:</u> The streetscape and its special qualities are of major significance to the state. The Corso has important historical links to the development of tourism and recreation which is still present and likely to continue. It's role as the pedestrian link between harbour and ocean, city and sea - for the tourist, is fundamental to Manly's status as a resort.</p> <p><u>Physical description:</u> The Corso is the NE-SW link between Manly Beach and Manly Cove. It acts as a low scale horizontal corridor which steps down from the harbour to the ocean. It has a cohesive character resulting from generally low scale of development on its principle streets, Construction to the property boundaries, slightly higher and distinctive corner buildings and a good level of pedestrian protection and amenity generated by footpath awnings and through-block arcades has produced strongly defined and comfortable urban spaces.</p> <p>Item I107 - Commercial building <u>Statement of significance:</u> One of the most elaborate facades featured in The Corso, contributes aesthetically and historically to the Corso streetscape.</p> <p><u>Physical description:</u> 2 storey rendered brick building of late Victorian period with elaborate Italianate rendered decoration above ground floor. Architectural significance in intricacy and detailing of pediment and in general abundance of motif and ornament including garlands, globes, acanthus leaf, palmate and intaglio decoration. 21/7/99 Community Aid Abroad shop. Some glass survives, however has been</p>

painted. Original form of shop survives beneath modern building.

Item I102 - 2 cast iron pedestals (former street lights)

Statement of significance:

Important evidence of early lighting fixtures in The Corso. Central reservation of The Corso between The Esplanade and Darley Road, Manly.

Physical description:

Each pedestal is made of cast iron, square in section and tapering towards the top. A narrow cylindrical stem for a street light has been removed from each and capped. Each pedestal carries the MMC emblem of the Council, with a plate identifying the manufacturer: 'Marrickville Engineering Works Ltd., Makers, Sydney'. Further research is necessary to identify the date and type of illumination (gas or electricity).

Item I104 - Street trees

Statement of significance:

Part of earliest planting on The Corso c.1850's by H.G. Smith. Historic and aesthetic importance to the streetscape.

Physical description:

Centre planting of Ficus Macrophylla (Moreton Bay Fig) Remnant Palm planting (Phoenix Canariensis) of 1928.

Item C2 - Town Centre Heritage Conservation Area

The Manly Town Centre Conservation Area (TCCA) is of local heritage significance as a reflection of the early development of Manly as a peripheral harbor and beachside village in the fledgling colony of New South Wales. This significance is enhanced by its role as a day-trip and holiday destination during those early years, continuing up to the present time, and its association with H G Smith, the original designer and developer of the TCCA as it is today. The physical elements of the TCCA reflect this early development and its continued use for recreational purposes, most notably the intact promenade quality of The Corso and its turn of the century streetscape, as well as key built elements such as hotels, and remaining original commercial and small scale residential buildings.
