RE: DA2021/0212 - 5 Skyline Place FRENCHS FOREST NSW 2086

Major impact of traffic and noise levels day and night,huge privacy issues as this building is looking straight in mine abd neighbouring properties,the noise of the works is already to much including the demolition rubbish that I've pick up from my front yard and the dangerous amounts of dust,have contacted the builder and owner and have been told its not their issue,we moved here cause it was a beautiful area and no residential buildings were to be built there,now they have cut down all the trees so there is no longer any screening,if this goes ahead when will it ever stop,looks like frenchs forest no longer has a forest abd will just become dee why with no beach
