To whom it may concern

This letter confirms that Project Independence Limited is a nationally registered Community Housing Provider (Tier 2 category). We have been registered and compliant since 2016 with properties in the ACT.

Details of our registration and compliance activities are available online via the National Regulatory System for Community Housing: <https://nrsch.gov.au/>

As yet, Project Independence does not own or manage any properties in New South Wales. It is our intention to extend our registration to cover any properties in NSW as and when we acquire them and they are ready to accept residents.
