Claude Caccamo
61 Myoora rd
Terrey Hills

To the Panel

I'm not quite sure how this procedure works, but I must assume that it's merely a formality as I'm sure this DA has been approved.

After reading all the submissions on this DA it's quite clear the residents of Terrey Hills are apposed to it as it clearly does not fit in with the whole street scape of Myoora rd.

Whilst nobody is able to look into a crystal ball and see what it will be like once it's opened, it's safe to say that there will be no benefit to the local community. Anyone who uses this part of Myoora road or lives in the local vicinity will understand what the traffic and pedestrian activity is like on a daily basis. The traffic study during COVID and sound study on a Sunday do not truly reflect this.

I hope we never have to look back and say "I told you so" because someone has reversed out because there wasn't enough room to turn around, and has accidentally hit one of the many school children that walk past this site every day.

I hope everyone involved in this decision has really looked at the big picture here. We know what has been proposed and I'm sure we all know what will eventuate.

Regards

Claude Caccamo
