Subject: "Oaklands" at Warriewood

Here's a chance to SAVE an historic, 1920s property, with a social history so obviously highly relevant in terms of local and NSW Heritage.

This unique property needs to be returned to the community, and here is an opportunity for Council to take a stand for Heritage, to give something of historic significance, of original quality, back to the community, versus over development and more of the same from self interested developers.

Thanks

Regards

Therese
