Re: You're PP0007/13 Boondah Rd (Red lined Areas)

1. During the 40s I use to wade through water 2 feet (600mm) deep Following a 72hr. deluge. Such a deluge is now not so common, but can return?
2. Unless the Meriton mess at a much higher RL has not been drained according to hydraulic flow practices to the Wetlands, significant problems may arise.
