Hi

I am writing to make this submission. The market has established itself as an important and essential service over the last year supplying residents of the Northern Beaches with fresh food during this difficult period.

The reports supporting the DA clearly demonstrate that:

- There is always sufficient parking inside the site for the parking load created by the market.
- There is no congestion caused on local roads by the market save for a queue for a few minutes at set up.
- There is no noise created by the market that can be heard from the premises of the main complainants to the continuation of the market.

This market is important on a social, food supply, employment and community basis and it should be allowed to continue into the future. It would be unthinkable to see it closed on the uncorroborated claims of it being a nuisance.

Regards
