RE: DA2019/0123 - 80 - 82 Mona Vale Road MONA VALE NSW 2103

I believe there is a DA for a new location for the frenchs forest market. As a trader and market attendee is like to submit my emphasis on the value of creating a new home for this very important market. As a trader I would see so much joy and community come together every Sunday at the frenchs Forest market. There was a real sense of community between the patrons and both children and adults would mingle and connect. Friendships were formed and creative collaborations. Young musicians had a chance to perform and ultimately, farmers and organic growers had an opportunity to sell their produce, keeping their business thriving. We need to support small business, small farmers and a thriving connected community if people. I have moved further away from the market now and a greatly miss the access to fresh organic produce. Please support this DA
