RE: DA2021/2362 - 1 / 1105 Barrenjoey Road PALM BEACH NSW 2108

Having growing up in Palm Beach where the village was part of community life in the 1960s one has had to except they changed use of many facilities and infrastructure. However, notwithstanding all these changes the character of this unique section of the northern Beaches has been sustained. A commercial development such as this proposed turn as into another Mona Vale of the north in appearance if not to the same level. It is devastating that the quite character of the current amenity needs to be replaced using every square inch without consideration for community or environment.
