

Statement of Environmental Effects

RECEIVED
09 SEP 2013

11 Adrian Place, Balgowlah Heights, NSW 2093

DA 76/2004

We have completed our build and are not proceeding with works being at garage level and consisting of study/store room/foyer/store room 2/internal stairs and 2 windows on south side of house.

☐ We have maintained original small store and put an internal door to the store room and we have walled in the original excavated room behind the garage with an internal door to the garage.

We are not proceeding with the build as stated above due to cost.

There are no environmental effects as a result of reducing the build.

☐ Sarah Robertson
