With respect to the above DA for The Pasadena at Church Point, I have NO objection to the proposal. I have lived in Eastview Road since 2003 & avoid Thomas Stephens Reserve. It is frequented by "locals" who use it as their "living room" - quoted directly from a leaflet dropped in our letterbox this week. Alcohol use & the smell of weed not to mention many unleashed dogs make it a horrible place to walk through or sit. To describe the reserve as "friendly" & "magical" is a joke unless you are from the off shore community. It's dirty & littered with rubbish especially cigarette butts. Anything The Pasadena owners are planning would be an improvement & should be encouraged.

Unfortunately, I find many locals exceedingly negative to anything & everything. Seems too many in our area have too much time on their hands to complain all the time.

Regards Catherine Nicholl
