**RE: PEX2021/0001 - 161 Darley Street West MONA VALE NSW 2103**

I live on this street and is is crowded enough with the existing units there. It is nearly impossible to turn left on Pittwater road. The amount of people living in those 41 planned units is too much for a very small street. The area is already congested with the existing units. I Sm very surprised that we were not consulted about this and it is only because of the vigilance of one resident and chance that we found out about this proposal . I feel that is being done by subterfuge by not asking us about our opinion. Please keep me informed of all meetings that may take place. Josine Reid
