RE: DA2018/1481 - 1 / 0 Veterans Parade NARRABEEN NSW 2101

We are a family with young children living in Collaroy Plateau just near the entrance to the War Veterans Home and are very concerned to hear about the proposal to erect an enormous telecoms tower in the Wat Veterans Village - 40m is extremely high and apart from the fact it will be a complete eyesore (in a community that is just celebrating getting rid of the ugly water tower), I understand that there could be negative effects on the health of the local community. My children are at Wheeler Heights Public School which is close to the proposed site and I do not want them to be exposed to these negative effects. If such a tower really is needed, surely there are more appropriate, remoter places in the national Parks or elsewhere, not in the middle of a suburban area? Please can you object to this application. Best regards, Caroline
