**RE: DA2020/1163 - 24 Wandeen Road CLAREVILLE NSW 2107**

I noticed that the amendments to the plans have made actually very little difference to the impact on the environment and neighboring properties. I am most concerned about the removal of trees and the huge size of this development which shows these people have very little respect or care for the environment they are moving into. If developments like these continue to pass it won't be long before this area becomes denuded of trees and the bird life and native animals will no longer survive. The koalas are long gone are we going to keep going until the possums birds bandicoots and everything else has gone too?
