RE: DA2019/1234 - 0 Wharves And Jetties MANLY NSW 2095

In relation to further development at Manly Wharf I hereby object.
Further development will increase traffic issues around the wharf/East and West Esplanade area and parking is not sufficient already.
More revellers making noise leaving premises late at night and the noise from the venues is not conducive to a residential/business area.
Finally, views from our building for which we paid high premiums on purchase will be further compromised.
I abjure the council to refuse further development at this already crowded site.
Thank you
Patricia Fleming
