Subject: Destruction of Pristine remnant bushland Application Number: DA2019/0200 centre building

Dear Sir/Madam,

Enough is enough, we just cannot lose anymore bush. This area has powerful owls, wallabies and echidnas to just name a few. This area is a corridor, it's crucial to leave this undeveloped. Allenby Park is a unique parcel of bushland that contains water tributaries that feed into the ocean, native rainforest and many species of native fauna including wallabies, echidnas and breeding pairs of the Powerful Owl which is listed on the New South Wales Threatened Species Conservation Act as Vulnerable.

This is a letter of objection, and a request that you deny the application regarding this proposed development. This development infringes on the bushland and represents overdevelopment of an area that needs to be kept as bushland.

This development will impact directly on the wildlife and bushland and also the many residents who have dwellings that back onto the valley. Light industry verging on bushland also poses the concern of bushfires. Thank you for taking our objections and suggestions into account.

Yours sincerely

Megan Glover
