RE: DA2020/0661 - 7356 / 1167221 Huston Parade NORTH CURL CURL NSW 2099

The position of this transmitter tower is ALARMING 300m from a primary school which is within the department of education recommendations of 500m. Also placing this within sporting grounds fear that electromagnetic emissions will impact on the health of children and the community who use these grounds on a daily basis!! Come on! Protect our community!!
