**RE: DA2020/0341 - 87 Blackbutts Road FRENCHS FOREST NSW 2086**

Subject: complaint about the proposed Development DA2020/0341

Dear Claire,

We are submitting our complaint regarding proposed development Application DA2020/0341

Lot 2413 DF 752038 87 Blackbutts Road Frenchs Forest  
Demolition works and construction of senior housing

Our complaint is regarding the height of the development and the window position of the 3 units particularly the back unit in the development.

We reside at 6 Kalgal Street Frenchs forest, at the back of proposed development.

The height of the development with the window facing east and south towards us will impact on our backyard privacy as we have a living area and pool. After looking at the proposed plan of this two-storey development we notice that the height of the development will severely impact the amount of natural light we will lose to our backyard (specially Pool area) in the afternoon. It also slightly impacts the amount of natural light we will loose to our entertainment area in the morning and noon.

This is deeply concerning to us as is our right to preserve our privacy. We would appreciate this development not proceed until there has been considerable acknowledge of this complaint and an alternative solution has been made.

Best regards

Tony and Nana Marinovic
