**Subject:** DA2021/1074 Submission

Following on from our previous online submission (see below for reference), we note that the privacy screen is still included in the recently amended plans - as advised on 26/10/2021.

As such, our request that it be removed from the development, for the reasons noted, remains.

-----

Our previous submission (5/08/2021 10:43:11 AM):

Our primary concern is the southern end of the development, which is much closer to our boundary than the existing deck. As such, it visually impacts our property and greatly reduces our outlook. However, we feel that removing the noted privacy screen at the southern end of the deck will address these issues. Please note we have discussed this issue with Mr and Mrs Caisley, who are happy to remove the privacy screen from the development to alleviate these concerns. Thanks for your consideration of this submission.

Thank you and regards,  
Bruce Mahony
