(S)	SMOKE DETECTOR

BASIX COMMITMENTS:

- External walls -
 - cavity brick with 20mm XPS polystyrene insulation to ground floor (excluding curved wall sections),
 - formed concrete with 20mm XPS polystyrene to roof access (including curved wall section)
 - no additional insulation required to lower ground and first floor external walls
- Windows:
 - Sliding doors - aluminium framed low e double glazing, U=2.5, SHGC=0.53 (including vertical glazing part of roof box)
 - Hinged doors - aluminium framed low e double glazing, U=3.4, SHGC=0.41
 - Awning windows - aluminium framed low e double glazing, U=4.3, SHGC=0.36
 - Sashless windows - aluminium framed low e double glazing, U=3.5, SHGC=0.48
 - Fixed windows - aluminium framed low e double glazing, U=2.5, SHGC=0.51
 - Curved windows - aluminium framed low e double glazing, U2.9, SHGC=0.56
- Internal walls -
 - single skin brick,
 - plasterboard lined, or
 - cavity brick, plasterboard lined
 - provide 20mm XPS polystyrene to walls adjacent to subfloor areas

- Floors -
 - waffle pod slab on ground,
 - suspended slab with R2.5 insulation to parts of ground floor and to first floor, default floor covering or as shown.
- Ceiling - plasterboard with R4.0 where adjacent to roof slab above
- Roof - concrete slab
- Skylights -
 - Velux fixed double glazed low e, U=2.7, SHGC=0.24
 - Velux ventilated double glazed low e, U=2.5, SHGC=0.21 (including roof part of roof access box)
- 5000L rainwater tank collecting at least 85m² of roof area
- Rainwater used for laundry cold water connection point and for outdoor use
- 5 star rated instantaneous HWS
- 3-Phase air conditioning throughout
- 4.5 star rated gas fixed flue heater to living area
- Gas cooktop & electric oven
- 10.0kW solar PV system
