RE: DA2019/0411 - 2 - 8 Old Pittwater Road BROOKVALE NSW 2100

The notification Map dated 13/5/19 on this website is flawed, it shows the the wrong site and is deceiving residents reviewing the applicatiion

The Noise assessment report is grossly flawed and deceptive, it shows noise maps from 9 Gulliver Street, and no noise maps from 5 Gulliver Street, the closest residential dwellings.

Further the noise maps show the intended use to be sports and a performance hall. There is no assessment from the use of Sports Whistles and loud Public Address (PA) systems and music etc

The use of sports whistles and hooters / sirens should be banned from the site (unless they are fire or evacuationsirens). The use of PA and music etc should be restricted to a certain decibel range suitable for a residential area
