Officer comments

The development site adjoins Orara Reserve that is located along the northern boundary of the development property.

No physical encroachments over the site boundaries are permitted, and structures and built elements are not permitted beyond the site boundaries. Public access to the reserve is not impacted by the proposed development and the development is not detrimental to the landscape character of the adjoining Reserve, and as such Parks, Reserves and Foreshores raise no concerns with the development proposal.

For information purposes: it is noted that approval of this development application does not regularise any unauthorised encroachments within the public reserve.

The proposal is therefore supported.

Note: Should you have any concerns with the referral comments above, please discuss these with the Responsible Officer.
