**RE: DA2019/1234 - 0 Wharves And Jetties MANLY NSW 2095**

I object to the submission to put a restaurant on top of the wharf bar. The noise into the east esplanade units would be substantial, it would travel straight up into our main living space. There is an enormous amount of bars and restaurants already in Manly, we do not see how this would be of benefit. There is already a lot of noise at closing time and another 500 seats would make this much much worst.
