RE: DA2020/0265 - 20 Chandos Street MANLY VALE NSW 2093

After looking at the plans and discussing them with Peter and Trish we have no objections to the proposed building. However our discussions with Peter included one consideration for the project: We have a large ('picture') window on the northern wall to our lounge room - our only north facing window and the view of blue sky will be replaced by us being able to see most of the new roofline of the development that faces south. While disappointed we accept this but hope that the TV antenna, which will have to be moved for construction, could be relocated to a position that would be out of view from that window.
