RE: DA2020/1465 - 4 / 0 Bennett Street CURL CURL NSW 2096

1) USAGE: Currently the last futsal game is played at 9.15pm Monday-Friday. Games take approx 40 minutes to play.

The Statement of Environmental Effects Report under "Usage" states there will be no change to the proposed times.

"Usage" as mentioned in the report above states during the week between 6am - 11pm which is too early and too late for our local community. The last futsal game needs to remain at 9.15pm no later.

2) FOOD: In the "Amenities" and/or "entertainment" area will there be a kitchen, food preparation or BBQ area? All food and beverages should be purchased at the Harbord Bowling Club.

3) Car parking does effect all local surrounding streets.

I'm not sure how the current site accommodates 100 car spaces as stated, or is Weldon Oval Carpark included in the 100 spaces?

If so Weldon Oval is a multi use sporting car park which is also used for AFL and cricket training during the week, not just allocated for Futsal use. Is additional car parking being allocated into this development?
