RE: DA2021/0004 - 1121 Pittwater Road COLLAROY NSW 2097

I myself think this is exactly what Collaroy needs, a veterinarian which is across the board in all animal welfare. Day minding for dogs, wildlife care (before being picked up by wires), drop off for lost dogs, exceptional veterinarian care for all types of animals.

The premises is easy to access with having ample parking which is off the street and not accessed from the main road

Having outgrown their previous residence, (I would say because of an increase in clientele) and growth on the northern beaches. Collaroy vet would have to be one of the best (if not the best) veterinarian care for animals in Sydney. We are lucky to have such a caring professional veterinarian clinic at our door step.
