RE: DA2020/1167 - 9 Francis Street DEE WHY NSW 2099

I am submitting an objection to the above development due to concerns of the overdevelopment of this area that is already congested.

Also I add my concerns in regard to the height and size of the development.

This will cause all disruption to air flow to my property as it already has no sunlight, my concern is this massive building will block all southerly breezeways which in turn will place the majority of the units incredibly damp which I consider a major health risk.

Thank you
