## Part 2: Site Plan and Details

Please provide sufficient details to locate tree(s) including labeling the tree(s) numerically on the plan. It is recommended that you tie a marker to tree(s) once this application has been lodged.

Reason for application and outline of proposed work

Large Casuarina Pine in front

yard of house, next to driveway, is causing a trip hazard due to roots damaging driveway and footpath. (concrete) The tree is very large and roots also damaging the garden ~~bed~~ pavers surrounding tree, showing its continuing to grow. The tree also drops branches, acorns and needles regularly. We have two small ~~children~~ <sup>+ 3yr old</sup> children so the branches are a concern and the acorns for 1 year old as he puts in mouth constantly.

The tree is very close to garage which will make it hard to access as it grows.

We would plant an Australian Native near the Casuarina if it were approved to be removed. Either the garden bed at top of property (near road) or on either side.
