

LEGEND

- Property boundary
- △ Roof fall
- EG: RL xx Eaves gutter
- DP-x (yyy) Downpipe (Diameter)
- Roof supporting pillar - 750 diameter concrete post to 600 above ground level. Structural engineering by others to provide structural integrity in the event of 520mm water depth and flow velocities of 3 m/sec
- New Stormwater pipe (min 1% slope)
- New Elevated stormwater pipe (min 1% slope)
- zzz Existing stormwater pipe with diameter from survey

NOTE	Dia from survey	Closest current manufacturers' diameters
	350*	375
	450*	450
	650*	675
	800*	825
	900*	900
