RE: DA2021/0004 - 1121 Pittwater Road COLLAROY NSW 2097

As a local Collaroy resident and a pet owner, I was excited to recently learn of the relocation of Collaroy Vet to 1121 Pittwater Road. The proposed updates of the building will complement the current heritage style. The relocation of the vet to the central hub on Collaroy Beach will make the practice more accessible for its clients with the onsite parking and will also further support the other local businesses on the Pittwater Road strip. The building has seen many businesses come and go over the last 10-20 years so it would be great to see a business that provides such an important role in not only Collaroy but also the wider Northern Beaches community occupy the building.
