RE: DA2020/0661 - 7356 / 1167221 Huston Parade NORTH CURL CURL NSW 2099

To the Assessing Officer,

My cultural heritage is at this site

It is where I planted trees 25 years ago when I was a student at north Curl Curl primary

It is where my children played with their great grandmother, my grandmother whom also lived in the North curl curl area for 50 years (Frances McGuire recently deceased)

It is where my parents in Blackwood Rd (Simon and Monique) take their grandchildren to look at the water lizard dragon by the lagoon, and tell them about their memories growing up In the area going to Manly high themselves

This is the area that I take my boys to do landcare work Clearing lantana and rubbish with the scouts to protect and preserve the area

To put a symbol that is ugly and creates feelings that I have no control over my surroundings gives me mental health stress

The opposite of a beautiful artwork

It creates feelings of destruction and disruption
of my place of cultural meaning and connection to my ancestors

We need peaceful places that we are able to relax
in and feel safe

Thank you

Morgan
