RE: DA2018/1602 - 57 Robertson Road SCOTLAND ISLAND NSW 2105

I would like to take this opportunity to make comment on the application to put a fence up at 57 Robertson Road, from the road side to the foreshore. This application is not in keeping with the spirit of Scotland island, the design of the fence, although most likely appropriate for the initial stages, from the plans, becomes more industrial as it gets closer to the water. This is not in keeping with the surround houses and landscape. Scotland island is still very much a unique, picturesque place, with a great feeling of openness and community. Unfortunately the owner of 57 Robertson road feels as though he needs to change this with big fences and the placing of building and other materials at the back of his boat house, which blocks the path for people walking around the island. I ask that you refuse this application and help to protect the beauty that is the Scotland island foreshore
