Subject: Mounties DA for Bowling Green at Watermark Freshwater

I totally oppose this DA

I bought my apartment, which is directly adjacent to and one level above the proposed bowling green, in the anticipation of a quiet, secure over 55's lifestyle

The Mounties selling agent misrepresented the use of the green area in the middle of our centre when I was negotiating my purchase

The noise and activity which will be generated by the proposed bowling activities and the access to and consumption of alcohol by "members and their guests" (as outlined in the DA) directly below my apartment is totally unacceptable and alien to a secure, quiet over 55 complex

I have been misled and completely reject any proposal to change the format or activities on the green area

Yours sincerely

Susan Magarey (Apartment 81)
